

LIVESTOCK WATERERS

**For cattle, horses, sheep, hogs
 Low energy or No Energy
 required waterers**

- Poly construction makes these tanks very durable.
 We are servicing tanks locally that are 35 plus years old
- Insulating factors (picture of cross section) make these tanks able to withstand freezing temps. 2-3" of urethane insulation with extra above valve area.
- E-Founts only require 4 kilowatts of electricity during a week of -25° C temperatures, making them very economical and efficient

WaterPro™ 2
